NATURAL WONDERS

In her latest collection, Rachel Loren explores the powerful effects of color on the human psyche, senses, and emotions.

Mesmerizing gemstones are celebrated in unique cuts, shades and settings. Primary colors and rich jewel tones like Fire Opals, London Blue, Amethyst, Green Onyx, Lemon Quartz and Green Tsavorite are offered as dramatic 'dagger' charms gracing earrings and necklaces. Intricate, fluid chains in 14kt gold sparkle against the skin. Clusters of iridescent pearls adorn velvet ribbons that can be worn as headbands, chokers, or bracelets. Signature safety pin earrings are cast in 14kt gold and accented with vibrant Tsavorite gems and dainty diamonds. A Silver Safety Pin Key Chain is strung with a puff heart charm. An oversized Safety Pin Belt Chain can be styled crossbody, as a belt or a necklace.

"There's a spirituality in these stones and shades that come from the earth. They connect you to the present moment." – Rachel Loren

Every piece carries quiet power derived from the earth and serves as a grounding presence, connecting the wearers to their inner worlds.
